

## **TITO's Vodka**

Tito's Handmade Vodka is produced in Austin at Texas' oldest legal distillery. We make it in batches, use old-fashioned pot stills, and taste-test every batch. Tito's Handmade Vodka is designed to be savored by spirit connoisseurs and everyday drinkers alike. Our process, similar to those used to make fine single malt scotches and high-end French cognacs, requires more skill and effort than others, but it's well worth it.

**COLOR :** Clear

**AROMA :** Very nice sweet corn scent to it (!). No off-notes or that rubbing alcohol smell you get from a bad or sloppy distillation. An exceedingly clean spirit. Some sweet smell - no doubt the influence of the corn.

**TASTE :** Very smooth - it just glides down the throat, silky, slightly hot at the end - lets you know you are drinking vodka- but not the broken glass and rubbing alcohol finish you get from a badly made vodka. Great body to it without having to resort to all the tricks others use

**ABV :** 40%
